
CSC 313 Project Milestone Plan

Software Engineering

Wyatt, Boston, Aaron, and Sydney

District 7570 Conference App

21st October 2017

OVERVIEW

To help stay on track, we propose a schedule for our project with milestone deliverables along the way. We chose what we will have done for each milestone date, in order to be held accountable for your commitments, and to insure steady work on our project.

MILESTONES

Milestone 1

Due Week 10

1. User Registration and Authentication completed.
2. Event creation and retrieval completed.
3. Have page design Graphics complete. (Not specific icons, but something placed.)
4. Basic interface completed. (No special icons or functionality, just needs to have the skeleton done.)

Milestone 2

Due Week 12

Goal: Make app ready for beta trials

1. Speaker creation and retrieval completed.
2. Admin abilities and privileges organized and completed.
3. All push notifications are functional.
4. All icons are made and placed.
5. Page design needs to be functional.
6. The App on the surface should look complete and be useable.

Milestone 3

Due Week 14

Goal: Completed App

1. Cleaning out all issues and bugs.
2. Code refactoring and optimization complete.
3. Code documentation finalized.
4. Completed App and Ready to Ship.
